

**STRAIGHT LIQUID INORGANIC MACRONUTRIENT FERTILISER: [PFC 1 (C)(I)(b)(I)]  
MINERAL FERTILISER SOLUTION N (Ca-Mg) 9 (9.6-2.5)**

**DECLARED CONTENT:**

9.0% w/w	.....	Total nitrogen (N)
9.0% w/w	.....	Ureic nitrogen (N)
9.6% w/w	.....	Water-soluble calcium oxide (CaO)
2.5% w/w	.....	Water-soluble magnesium oxide (MgO)

**LIST OF INGREDIENTS:**

Urea<sup>1</sup> (CAS No. 57-13-6), Calcium gluconate<sup>1</sup> (CAS No. 299-28-5), Magnesium gluconate<sup>1</sup> (CAS No. 3632-91-5)  
<sup>1</sup>Virgin material substances and mixtures.

**INSTRUCTIONS FOR USE:**

RootFeed is a liquid fertiliser that provides nitrogen, calcium and magnesium, essential nutrients for the growth and development of the root system, the translocation of calcium within the plant and physiological balance. RootFeed contains Stoller's patented N-Hib technology, which provides a controlled release of ureic nitrogen for more efficient absorption.

INSTRUCTIONS AND APPLICATION RATES					
Crop		☒	☒	Growth stage	☒
Fruiting vegetables	Protected	✓	5 L/ha	From transplant to end of cycle	Weekly
	Open field	✓			
Leaf vegetables	Protected	✓	5 L/ha	From planting to end of cycle	Weekly
	Open field	✓			
Tubers		✓	5 L/ha	From tuberization to tuber bulking	Weekly
Bulbs		✓	5 L/ha	From bulb formation to bulb filling	Weekly
Root vegetables		✓	5 L/ha	From root formation to root bulking	Weekly
Orchards	Adults	✓	7 L/ha	From bud break to harvest	Weekly
	Saplings trees	✓	5 L/ha	From sprouting to stunted growth	Weekly
Grapes	Adult	✓	7 L/ha	From bud break to harvest	Weekly
	Saplings	✓	5 L/ha	From sprouting to stunted growth	Weekly
Berries		✓	5 L/ha	From bud break to harvest	Weekly
Banana		✓	5 L/ha	From sprouting to harvest	Weekly

Optimal dose	Dosage min - max	Treatment volume (L)	Treat. Vol. (L) min - max
			Frequency

If you have any questions, please contact Stoller Europe company, or the distributor of Stoller Europe, or your technical advisor, for more specific recommendations.

**Observations:**

Carefully read the instructions on the label before using the product. RootFeed should be applied during the early stages after the transplant, thus favoring root system development and improving wet bulb conditions. The product is designed to be ideally used on the soil, by localized irrigation or aspersion. The product should not be mixed with other liquid fertilisers that contain phosphorus or sulphur in order to avoid insoluble precipitations. Any mixture should be made and applied at the same time and we recommend to previously consult with your distributor or local representative.

These doses are indicative, and it will be the user's responsibility to increase or decrease them according to the crop's characteristics, always following the advice of a specialist technician. In any case, we recommend making a small-scale test before using the product.

**RECOMMENDED STORAGE CONDITIONS:**

Store according to local legislation. Observe indications on the label. Store the containers between 0 and 35 ° C, in a dry and well-ventilated place, far from sources of heat and direct solar light. Keep far away from ignition points. Keep away from oxidising agents and from highly acidic or alkaline materials. Do not smoke. Prevent the entry of non-authorised persons. Once the containers are open, they must be carefully closed and placed vertically to prevent spills. Please also refer to the information provided in the Material Safety Data Sheet (MSDS).

**SAFETY AND ENVIRONMENTAL INFORMATION:**

Carefully read the instructions on the label before using the product. To avoid risks to human health and the environment, comply with the instructions for use.  
Labelling in accordance with Regulation (EC) No 1272/2008:

**WARNING**

**PRODUCT CLASSIFICATION:**

Hazard statements:  
H319. Causes serious eye irritation.

Precautionary statements:  
P264. Wash areas in contact thoroughly after handling.  
P280. Wear protective gloves/protective clothing/eye protection/face protection/hearing protection/...  
P305+P351+P338. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.  
P337+P313. If eye irritation persists: Get medical advice/attention.

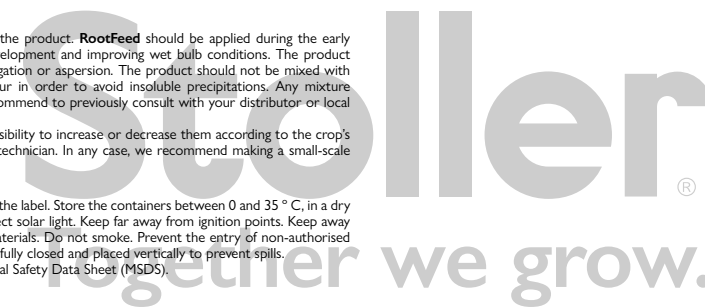

This fertiliser contains urea, which can release ammonia and have an impact on air quality. Depending on local conditions, appropriate remediation measures must be taken.

**OTHER INFORMATION/ADDITIONAL INFORMATION:**

Professional use.

**WARNING:**

STOLLER EUROPE, S.L.U. makes all the recommendations based on experience. A lot of uncontrollable factors (preparation of mixtures, climatology, application forms, etc.) may be involved. Therefore, the user will be responsible for any damage that may occur.
