

## LIQUID FERTILISER WITH SEAWEED EXTRACT

### DECLARED CONTENT:

Water-soluble boron (B).....	8.0 % w/w
Water-soluble molybdenum (Mo).....	0.02 % w/w
Mannitol.....	0.10 % w/w

**Species based seaweed extract:** *Ascophyllum nodosum*

**Class A** – “Heavy metal content lower than the authorized limits for this classification”.

**pH:** 9,0 ± 1,0

**Electric conductivity:** 5,0 ± 1,0 dS/m

### DESCRIPTION:

**ChromaFruit** is a fundamental part of the solution proposed by Stoller that allows the natural induction of colour pigments (Carotenoids and Anthocyanins). The Stoller Formulation Technology of the product brings unique properties as an advanced tool in the quality production management of apple and cherry, favouring the efficient and natural stimulation of the metabolic processes related to the induction and colour change of the fruit. **ChromaFruit** complies with the regulation (Regulation 2018/848) for use in organic farming.

INSTRUCTIONS AND APPLICATION RATES					
Crop					Growth stage
Apple					30 and 15 days before harvest (BBCH 79-80 and BBCH 81-82)
Orchards	✓	0.60 %	1000-1200	6-7 L/ha	2 applications every 15 days 2 applications every 7-10 days
Cherry					

Foliar application   
 Irrigation application   
 Seed treatment   
 Furrow treatment  
 Optimal dose   
 Dosage min - max   
 Treatment volume (L)   
 Treat. Vol (L) min - max   
 Frequency

### USE RECOMMENDATIONS:

Carefully read the instructions on the label before using the product.

The product is compatible with most plant nutrition products. It is recommended to be tank mixed always in the following order: 1. Water 2. **ChromaFruit** 3. Agrochemicals. However, if mixing is desired, prior consultation with your local distributor or representative is recommended. Immediate application of any product mixture is recommended, avoiding leaving the mixtures at rest for long periods of time.

It is recommended to perform any compatibility test with other products before mixing with **ChromaFruit** and to perform small scale crop trials before using the product.

### STORAGE:

Store in a dry place, avoiding extreme temperatures: Below 0 °C and above 35 °C.

### SAFETY AND ENVIRONMENTAL INFORMATION:

P102. Keep out of reach of children

P270. Do not eat, drink or smoke when using this product.

### WARNING:

STOLLER EUROPE S.L.U. makes all the recommendations based on experience. A lot of uncontrollable factors (preparation of mixtures, climatology, application forms, etc.) may be involved. Therefore, the user will be responsible for any damage that may occur.
