

**STRAIGHT LIQUID INORGANIC MACRONUTRIENT FERTILISER: [PFC 1(C)(l)(b)(i)]
MINERAL FERTILISER SOLUTION (Mg) (2,3) WITH MICRONUTRIENTS****DECLARED CONTENT:**

2.3 % w/w Water-soluble magnesium oxide (MgO)
 1.0 % w/w Water-soluble iron (Fe), 0.9 % w/w complexed by liginosulphonic acid from liginosulfate
 0.45 % w/w Water-soluble manganese (Mn) 0.4 % w/w complexed by liginosulphonic acid from liginosulfate
 0.1 % w/w Water-soluble zinc (Zn), 0.1 % w/w complexed by liginosulphonic acid from liginosulfate
 pH range guaranteeing acceptable stability of the complexed fraction: pH between 1 and 9.

LIST OF INGREDIENTS:

Molasses¹, Magnesium liginosulfonate¹ (CAS no 8061-54-9), Iron liginosulfonate¹ (CAS no 39331-38-9), Manganese liginosulfonate¹ (CAS no 68186-83-4).

¹Virgin material substances and mixtures.

INSTRUCTIONS FOR USE:

VitaminaMix is a liquid fertiliser that provides magnesium along with other essential microelements. VitaminaMix is designed to act on the nutritional needs of the crop and thus be able to reach the agronomic and productive potential. The **Stoller Technology** present in the formulation of the product provides adequate nutrition to intervene naturally in the physiological processes of plants.

INSTRUCTIONS AND APPLICATION RATES					
Crop	☰	☱	Growth Stage	📅	
Fruiting vegetables	✓		From transplant to end of cycle		
Leaf vegetables	✓	5-7 L/ha	From planting to end of cycle		
Tubers, bulbs, root vegetables	✓		From the first sprout to harvest		
Orchards, Grapes	Adults	7-10 L/ha	From sprouting to harvest	Weekly	
	Sapling trees	5 L/ha	From sprouting to growth stop		
Berries, strawberry	✓		From sprouting to harvest		
Banana	✓	5-7 L/ha	From planting to harvest		
☰ Foliar application	☱ Irrigation application	☲ Seed treatment	☳ Furrow treatment		
☰ Optimal dose	☱ Dosage min - max	☲ Treatment volume (L)	☳ Treat. Vol (L) min - max	📅 Frequency	

If you have any questions, please contact Stoller Europe, or the distributor of Stoller Europe, or your technical advisor, for more specific recommendations.

Observations:

Carefully read the instructions on the label before using the product.

VitaminaMix is designed to be used via the roots. It must be applied at the end of the irrigation phase, proceeding to a short application of irrigation water to clean the gums and seal the product in the soil. The goal is to locate the product in the first centimeters of soil depth and avoid washing it. The product is compatible with most liquid fertilisers. Any mixture should be made and applied at the same time and we recommend to previously consult with your distributor or local representative.

To be used only where there is a recognised need. Do not exceed the application rate. It will be the user's responsibility to increase or decrease them according to the crop's characteristics, always following the advice of a specialist technician. In any case, we recommend making a small-scale test before using the product.

RECOMMENDED STORAGE CONDITIONS:

Store according to local legislation. Observe indications on the label. Store the containers between 0 and 35 °C, in a dry and well-ventilated place, far from sources of heat and direct solar light. Keep far away from ignition points. Keep away from oxidising agents and from highly acidic or alkaline materials. Do not smoke. Prevent the entry of non-authorised persons. Once the containers are open, they must be carefully closed and placed vertically to prevent spills. Please also refer to the information provided in the Material Safety Data Sheet (MSDS).

SAFETY AND ENVIRONMENTAL INFORMATION:

Carefully read the instructions on the label before using the product. To avoid risks to human health and the environment, comply with the instructions for use.

Labelling in accordance with Regulation (EC) No 1272/2008:

**WARNING****PRODUCT CLASSIFICATION:**

Hazard statements:

H373. May cause damage to organs through prolonged or repeated exposure.
 H412. Harmful to aquatic life with long lasting effects.

Precautionary statements:

P260 Do not breathe dust/fume/gas/mist/vapours/spray.
 P273. Avoid release to the environment.
 P314. Get medical advice/attention if you feel unwell.
 P501. Dispose of contents/container to a chemical waste bin

OTHER INFORMATION/ADDITIONAL INFORMATION:

Professional use.

Fertiliser usable in organic plant production according to R(EU) 2018/848.

WARNING:

STOLLER EUROPE S.L.U. makes all the recommendations based on experience. A lot of uncontrollable factors (preparation of mixtures, climatology, application forms, etc.) may be involved. Therefore, the user will be responsible for any damage that may occur.
