If you have any questions, please contact Stoller Europe, or the distributor of Stoller Europe, or your technical advisor, for more specific recommendations.

Observations:

The product is compatible with the most common fertilisers. It is recommended to be applied in the following order: 1st Water 2nd **Abundantia** 3rd Agrochemical. Any mixture should be made and applied at the same time and we recommend to previously consult with your distributor or local representative. These doses are indicative, and it will be the user's responsibility to increase or decrease them according to the crop's characteristics, always following the advice of a specialist technician. In any case, we recommend making a small-scale test before using the product.

RECOMMENDED STORAGE CONDITIONS:

Store the containers between 0 and 35 °C. General conditions for storage: avoid sources of heat, radiation, static electricity and contact with food. Please also refer to information provided in Material Safety Data Sheet (MSDS).

SAFETY AND ENVIRONMENTAL INFORMATION:

Carefully read the instructions on the label before using the product. To avoid risks to human health and the environment, comply with the instructions for use. The product is not classified as hazardous according to CLP Regulation (EC) No 1272/2008.

This fertiliser contains urea, which can release ammonia and have an impact on air quality. Depending on local conditions, appropriate remediation measures must be taken.

OTHER INFORMATION/ADDITIONAL INFORMATION:

Professional use.

Warning:

Stoller Europe S.L.U. makes all the recommendations based on experience. A lot of uncontrollable factors (preparation of mixtures, climatology, application forms, etc.) may be involved. Therefore, the user will be responsible for any damage that may occur.
