If you have any questions, please contact Stoller Europe, or the distributor of Stoller Europe, or your technical advisor, for more specific recommendations.

Observations:

The product should not be mixed with other liquid fertilisers that contain phosphorous or sulphur in order to avoid insoluble precipitations. However, in any mixture, it is advisable to consult beforehand with your local distributor or representative. These doses are indicative, and it will be the user's responsibility to increase or decrease them according to the crop's characteristics, always following the advice of a specialist technician. In any case, we recommend making a small-scale test before using the product. To be used only where there is a recognised need. Do not exceed the application rate.

RECOMMENDED STORAGE CONDITIONS:

Store the containers between 0 and 35 °C. General conditions for storage: avoid sources of heat, radiation, static electricity and contact with food. Please also refer to information provided in Material Safety Data Sheet (MSDS).

SAFETY AND ENVIRONMENTAL INFORMATION:

Carefully read the instructions on the label before using the product. To avoid risks to human health and the environment, comply with the instructions for use.
Classification of this product has been carried out in accordance with CLP Regulation (EC) No 1272/2008.
