If you have any questions, please contact Stoller Europe company, or the distributor of Stoller Europe, or your technical advisor, for more specific recommendations.

Observations:

The product should not be mixed with other liquid fertilizers that contain phosphorus or sulphur in order to avoid insoluble precipitations. However, if mixing is desired, it is advisable to consult your local distributor or representative in advance. These doses are indicative, and it will be the user's responsibility to increase or decrease them according to the crop's characteristics, always following the advice of a specialist technician. In any case, we recommend making a small-scale test before using the product.

RECOMMENDED STORAGE CONDITIONS:

Store the containers between 0 and 35 °C. General conditions for storage: avoid sources of heat, radiation, static electricity and contact with food. Please also refer to information provided in Material Safety Data Sheet (MSDS).

SAFETY AND ENVIRONMENTAL INFORMATION:

Carefully read the instructions on the label before using the product. To avoid risks to human health and the environment, comply with the instructions for use.

Classification of this product has been carried out in accordance with CLP Regulation (EC) No 1272/2008.
