If you have any questions, please contact Stoller Europe, or the distributor of Stoller Europe, or your technical advisor, for more specific recommendations.

### Observations:

Foliar applications are recommended, with slightly acidic solutions. We recommend not to mix the product with other fertilisers that contain phosphates or sulfates. However, if you want to mix, it is advisable to consult with your local distributor or representative in advance. These doses are indicative, and it will be the user's responsibility to increase or decrease them according to the crop's characteristics, always following the advice of a specialist technician. In any case, we recommend making a small-scale test before using the product. Do not exceed the application rate.

### RECOMMENDED STORAGE CONDITIONS:

Store the containers between 0 and 35 °C. General conditions for storage: avoid sources of heat, radiation, static electricity and contact with food. Please also refer to information provided in Material Safety Data Sheet (MSDS).

### SAFETY AND ENVIRONMENTAL INFORMATION:

Carefully read the instructions on the label before using the product. To avoid risks to human health and the environment, comply with the instructions for use.

Classification of this product has been carried out in accordance with CLP Regulation (EC) No 1272/2008.
